“For more than 25 years, the CODiE Awards have shone a spotlight on the companies and products that are revolutionizing software, education technology and digital content,” said Ken Wasch, President of SIIA. “What sets this program apart from all others is that the winners are selected by those who really know their stuff – whether they’re tech executives, industry analysts, or journalists. SIIA recruits leading software, digital content and education people to put each nominated product through an intensive review process. ExploreLearning, Learning A-Z, Voyager and all companies that survive the process and become a finalist can say unequivocally that they are producing one of the finest, most innovative products on the market.”

SIIA members will now review finalists and vote for a winner in each category. Recipients of the 2011 CODiE Awards will be announced at the Ed Tech Industry Summit on May 23, 2011, at the Palace Hotel in San Francisco. About the CODiE™ Awards

The CODiE™ Awards, originally called the Excellence in Software Awards, were established in 1986 by the Software Publishers Association (SPA), now the Software & Information Industry Association (SIIA), so that pioneers of the then-nascent software industry could evaluate and honor each other's work. Since then, the CODiE Awards program has carried out the same purpose - to showcase the software and information industry's finest products and services and to honor excellence in corporate achievement.

About SIIA

The Software & Information Industry Association (SIIA) is the principal trade association for the software and digital content industry. SIIA provides global services in government relations, business development, corporate education and intellectual property protection to 500 leading software and information companies.
