

Equip teachers with the support they need to make the greatest impact in their classroom.

Learning A-Z Implementation Pathways offer job-embedded learning experiences for cohorts of up to 25 to deepen your teachers' understanding of their Learning A-Z resource and strengthen the impact it has in the classroom.

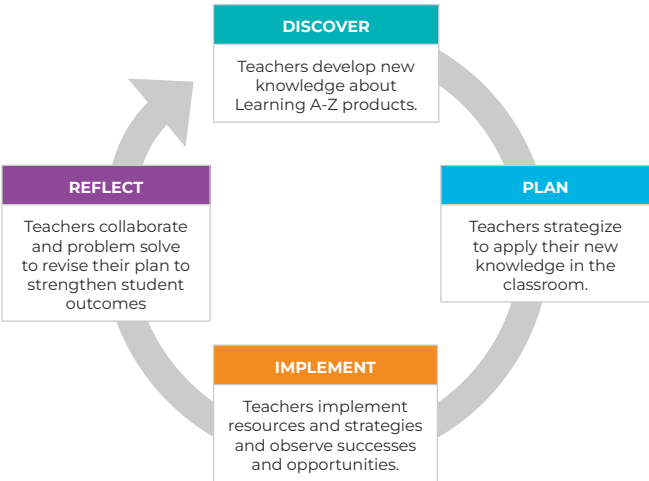

Each Learning A-Z Implementation Pathway includes:

A professional learning expert to guide a cohort of up to 25 teachers through the entire learning pathway.

Three live webinars to equip teachers with foundational knowledge of their product, digging deeper into strategies with each consecutive webinar. Each webinar includes time to plan for classroom application.

Implementation cycles that offer structured, job-embedded practice that follows a Discover-Plan-Implement-Reflect structure.

Learning Community office hours to engage in collaborative problem solving with your colleagues and professional learning expert.

Implementation Cycles
