

The all-in-one K-5 supplemental **literacy** solution

Everything teachers need to help their students grow

Raz-Plus®, a Learning A-Z® solution, equips teachers with a robust collection of versatile literacy resources to support their Science of Reading-aligned core curriculum.

By emphasizing foundational skills and reading comprehension equally, Raz-Plus gives educators the support and time they need to focus on what matters most—teaching and reaching all their students.

“Raz-Plus is a resource I use daily, and what makes me happiest is the ease with which I can find materials. With Raz-Plus, my students have improved their reading skills while being exposed to new and unfamiliar topics.”

Bethany R., Classroom Teacher, Acero Charter Schools, IL

Extend and enhance your literacy core.

Get practical and flexible resources, including:

- Decodable Books, Phonics Skill Packs, Graphic Organizers, and Vocabulary Lessons
- Metacognition strategies and resources to build and develop students' thought processes while reading texts
- Playful student portal, including an independent self-paced practice area to build foundational skills and engage with a robust library of student texts

DID YOU KNOW?

Teachers spend **7-12 hours** per week searching for and creating materials to support their instruction.

2023 EdReports Data

COMPREHENSIVE

Essential, all-in-one literacy support for every classroom

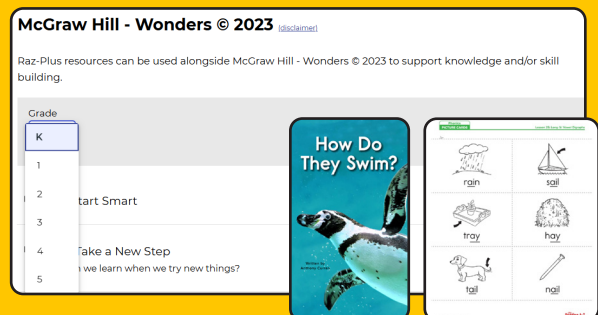

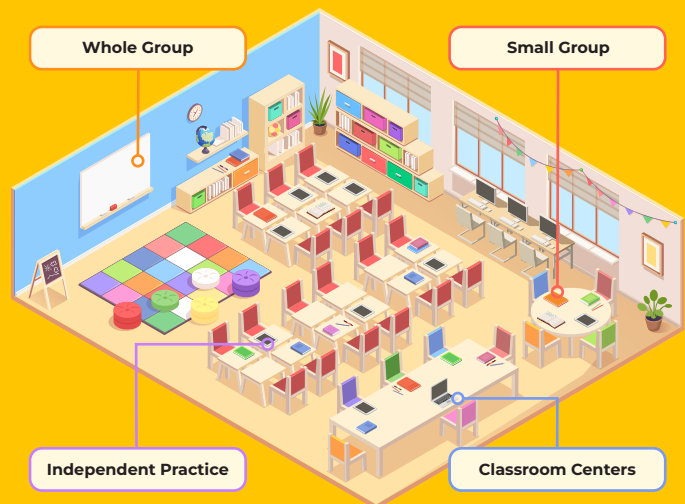

Access a library of practical K-5 reading comprehension and foundational skills tools and resources that support whole-group instruction, small groups, classroom centers, and independent practice.

SUPPLEMENTAL

Connected to your core to extend and enhance learning

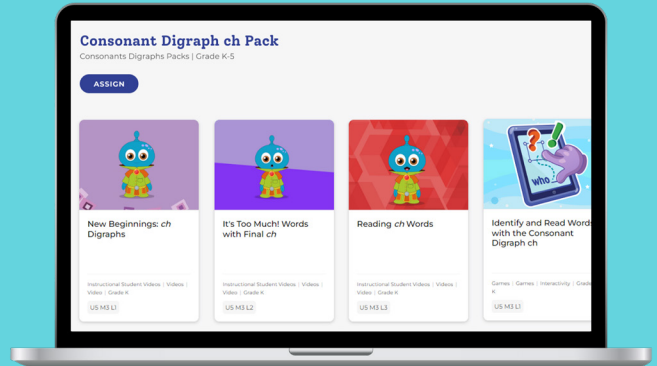

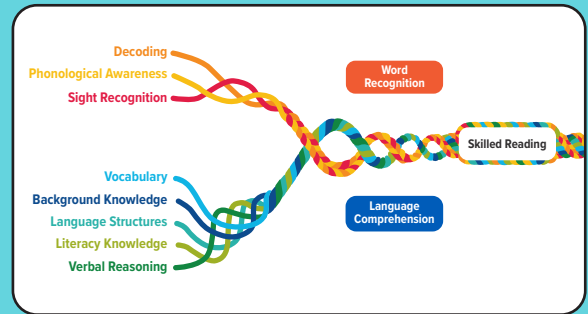

Built-in correlations enable teachers to search for their core curriculum and find diverse instruction and resources for further practice, application, and differentiation to meet the unique learning needs of all students.

PRACTICAL

Rooted in the latest research to support literacy best practices

Raz-Plus offers user-friendly homepage navigation organized across five Science of Reading-aligned literacy domains (Foundational Skills, Vocabulary and Language, Comprehension: Informational Texts, Comprehension: Literature, and Metacognition) with research-based instructional supports for growth in each area.

Modified from Scarborough, H. S. (2001). Connecting early language and literacy to later reading (dis)abilities: Evidence, theory, and practice. In S. Neuman & D. Dickinson (Eds.), Handbook for research in early literacy. New York, NY: Guilford Press

JOYFUL

Independent practice to develop lifelong learners

A playful student portal offers compelling books in addition to foundational skill independent practice opportunities with incentives to engage and motivate students. Digital practice activities follow the science of how students learn best, prompting immediate feedback and guiding students to identify the correct answer on their own.

Get even more from Raz-Plus.

Support equitable instruction in multilingual classrooms.

Raz-Plus ELL

Enable educators to deliver engaging lessons that enhance reading, writing, listening, and speaking abilities for students at different stages of English language development.

Raz-Plus ESPAÑOL

Nurture bilingual learning with an extensive variety of authentic Spanish texts and other transadaptive resources written by Spanish-language authors.

DID YOU KNOW?

A 2025 study published in AERA Open found that **10.4%** of U.S. school-age children are classified as English Learners (ELs), yet many struggle with higher-level language and reading comprehension skills

Use cases

- Self-paced foundational skills practice

Impact and outcomes

"[Teachers] love the alignment with Raz-Plus, and it helps them save time and find more tools and resources."

Dr. Erin Anderson, Director of Elementary and Title One, Kannapolis City Schools, NC

"Raz-Plus is the best program I've used for building reading skills and fluency in over 30 years of teaching."

Donna Edmonds, First Grade Teacher, Summit Christian Academy, TX

Students whose teachers used Raz-Plus showed significantly higher levels of reading achievement and interest in both academic and recreational reading.

Ho, H. (2018, August 30). Efficacy study of Raz-Plus, a blended learning platform for K-5 reading. Denver, CO: McREL International.
