

Cambium Learning Group Receives 5 Finalist Honors for Prestigious Software & Information Industry CODiE Awards

DALLAS, TX — April 24, 2014 — Cambium Learning Group (NASDAQ: ABCD), the educational solutions and services company that leverages engaging, innovative technology to help all students reach their full potential, announced today that two of its business units, Learning A-Z and ExploreLearning, received five finalist honors in four education categories for the prestigious CODiE Awards. This marks the third straight year that both Learning A-Z and ExploreLearning have had multiple products receiving finalist nods for the CODiE Awards.

“Learning A-Z and ExploreLearning have been named as finalists for three years in a row, with multiple wins in a variety of categories,” said Cambium Learning Group CEO John Campbell. “This is very rewarding because it means we continue to successfully expand our technology to make an even bigger difference in classrooms around the world.”

Established by the Software and Information Industry Association (SIIA), the CODiE Awards recognize excellence and achievement in the business software, digital content, and education technology industries.

“At Cambium Learning Group, we partner with educators by providing them with technology that engages students and helps them grow,” said Campbell. “To do that requires strong teachers and smart, instruction-focused technology, which is where we come in.”

The following Cambium Learning Group products named as 2014 finalists are:

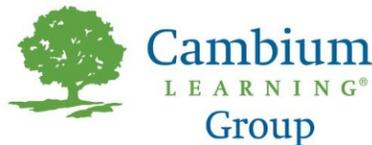

From ExploreLearning

Best Learning Game: Reflex
Best Mathematics Instructional Solution: Gizmos

From Learning A-Z

Best Reading/English/ELL Instructional Solution: Reading A-Z
Best Reading/English/ELL Instructional Solution: Raz-Kids
Best Science/Health Instructional Solution: Science A-Z

This year's program features 28 software categories, several of which are new or updated to reflect the latest industry trends. Winners will be announced during a special awards dinner on May 21 in San Francisco.

The SIIA CODiE Awards are the industry's only peer-reviewed awards program. The first-round review of all nominees includes industry executives and analysts, representatives of media outlets, bloggers, and investors. The judges are responsible for selecting the CODiE Awards finalists. SIIA members then vote on the finalists' products, and the scores from both rounds are tabulated to select the winners.

About ExploreLearning

ExploreLearning develops online solutions to improve student learning in math and science. ExploreLearning currently has two products: Gizmos, the world's largest library of interactive, online simulations for math and science in grades 3–12; and Reflex, the most powerful solution available for math fact fluency development. Gizmos and Reflex bring research-proven instructional strategies to classrooms around the world. ExploreLearning is a Charlottesville, VA-based member of Cambium Learning Group, Inc. (ABCD), based in Dallas, Texas. For more information about Gizmos, please visit www.explorelearning.com. For more information about Reflex, please visit www.reflexmath.com.

About Learning A-Z

Learning A-Z is a PreK-6 educational resource company specializing in online delivery of leveled readers and supplementary curriculum. Founded in 2002 to help teachers differentiate instruction and meet the unique needs of all students, Learning A-Z's resources are currently used in more than half of the districts in the U.S. and Canada and 165+ countries worldwide. Serving a wide range of student needs, including ELL/ESL, intervention, special education, and daily instruction, Learning A-Z includes: Reading A-Z, Raz-Kids, Science A-Z, Vocabulary A-Z, Writing A-Z, Headsprout Early Reading and Headsprout Reading Comprehension. Learning A-Z is a member of Cambium Learning Group, Inc. (ABCD), based in Dallas, Texas. For more information, please visit www.learninga-z.com.

About Cambium Learning Group, Inc.

Cambium Learning Group is a leading educational solutions and services company that is committed to helping all students reach their full potential by providing evidence-based solutions and expert professional services to empower educators and raise the achievement levels of all students. The company is composed of four business units: Voyager Learning and Sopris Learning, Learning A-Z, ExploreLearning, and Kurzweil Educational Systems. Together, these business units provide best-in-class intervention and supplemental instructional materials; gold-standard professional development and school-improvement services; breakthrough technology solutions for online learning and professional support; valid and reliable assessments; and proven materials to support a positive and safe school environment. For more information, visit www.cambiumlearning.com

About the SIIA CODiE Awards

The CODiE Awards were established in 1986, by the Software and Information Industry Association (SIIA) so that pioneers of the software industry could evaluate and honor each other's work. Since then, the program has evolved into three tracks — organized by industry focus in content, education, and software — but the core mission has always remained the same: recognizing excellence by honoring the software and information industry's leading products and services. The SIIA Education Division serves and represents more than 200 member companies that provide software, digital content, and other technologies that address educational needs.
