

## Experience Unparalleled Implementation Support

When you choose to implement Learning A-Z products in your district, you are getting a partner who is 100% committed to your success.

As part of our focus on your success, we will assign a dedicated implementation coordinator to your account, who will be with you every step of the way. Your implementation coordinator will work closely with your team to ensure that you receive unparalleled support throughout your partnership with Learning A-Z, including but not limited to:

- Initial assistance and continued support with rostering, including automated rostering and single sign-on (SSO) options such as Clever or OneRoster\*
- Initial training and continued support for license coordinators on Learning A-Z account management tools
- Access and training on using administrative reporting and shared rostering
- Teacher and student usage reports
- Guidance for end-of-year and summer school procedures

**Implementation services are complimentary for districts that purchase 100+ product licenses.**

**Contact your sales representative to learn more.**

\*Eligibility requirements must be met to implement automated rostering and SSO. Your implementation coordinator can provide further information.
