Learning A-Z

Personalized Reading

Raz-Plus provides an extensive collection of foundational skills resources, including more than 2,500 leveled books, quizzes, and teaching materials available in print and digital formats. With this one blended learning platform, teachers have access to the resources they need for differentiated instruction, and students have access to an interactive eLearning environment that provides a library of standards-aligned texts they can choose from to practice their reading in school, at home, or on the go.

Integrated Spelling, Phonics, and Vocabulary

Vocabulary A-Z helps K-5 students build vocabulary and increase reading comprehension through fun, game-based activities that help students develop fundamental literacy skills. Teachers can choose premade word lists and customizable lessons to connect spelling, phonics, and vocabulary instruction to current topics of study, core reading series, or Learning A-Z resources. They can then assign printable or digital lessons to students for differentiated independent practice, and inform instruction with digital reporting.

A Language Arts Library

Combined, the resources provided on Raz-Plus and Vocabulary A-Z offer a complete English language arts package. Resources can be easily differentiated and used in a variety of ways to ensure students have the tools they need to improve their language arts skills.
