

Professional Learning: Job-Embedded Lesson Modeling

Make the Greatest Impact With Job-Embedded Lesson Modeling

Help teachers maximize lesson delivery effectiveness through in-classroom modeling support from Learning A-Z Professional Learning experts. Through this explicit **Job-Embedded Lesson Modeling** by our experts, teachers gain valuable insight into best practices for **linking their instruction to the goals set forth for their students** by grade-level teams and schools, have **access to collaborative planning sessions** to help inform decision making along the way, and **receive ongoing feedback**. Success is measured by teachers' ability to effectively develop and implement a vision for further instruction.

- **Consult with a Learning A-Z Professional Learning expert** to determine ELA strategies for in-classroom modeling.
- **Select relevant resources** to inform in-classroom modeling and best practices.
- **Discuss resource selection and next steps** with teachers/team.
- **Observe the modeled ELA lesson** with grade-level colleagues.
- **Debrief with the Learning A-Z expert and colleagues** to review instructional strategies and plan next steps.
