

Show Teachers How Learning A-Z Solutions Support the Science of Reading

Help teachers maximize lesson effectiveness through modeling support from Learning A-Z Professional Learning experts. Through explicit **Lesson Modeling**, teachers learn to use the principles and best practices of the Science of Reading to achieve their instructional goals with Learning A-Z resources. Following the modeled lesson, a Learning A-Z expert will debrief the teachers and help them with implementation planning. Success is gauged by the teachers' ability to **effectively develop and implement a plan for future instruction**.

- **Consult with a Learning A-Z Professional Learning expert** to select Learning A-Z resources that support your literacy goals.
- **Observe the modeled lesson** with grade-level colleagues.
- **Debrief with the Learning A-Z expert** to review instructional strategies.
- **Plan for strategic implementation** of Learning A-Z resources.
