

How to Assign Resources in Raz-Kids

The Assignments Feature saves you valuable time while strengthening the connection between instruction and practice. You can easily assign resources to your whole class, small group, or individual students. Digital resources give students the opportunity to learn independently – anywhere they have an internet connection – through the Kids A-Z digital portal and mobile app.

The process for assigning a resource is simple and easy to complete.

Main Resource Pages:

1 You can directly assign individual resources by selecting the Assign button.

2 Hover over the resource thumbnail to display the Assign button.

3 Once you select the *Assign* button, choose the activities and students or groups of students in your roster you want to receive the assignment.
