CLUSTERS GO FISH

Directions

1. Mix up the cards and place them face down in a pile.

2. Each player draws 6 cards.

3. Place any pairs with the same beginning consonant cluster (e.g. *br*, *str*, *spl*, etc.) face up on the table.

4. Take turns asking a player for a card with a specific beginning consonant cluster. For example, if Player 1 held the “branch” card, he/she would ask another player: Do you have a card with the beginning “br” cluster?

5. If the other player has the card, he/she hands over the card, and the pair is placed on the table for Player 1 to read aloud. Player 1 plays again.

6. If another player takes a turn, the player with no cards left wins.
