

## Aligned to Florida Science Standards & Florida Access Points for Science

### Literacy Support Targeting Science Content

#### Science lessons include Reading Strategy and Comprehension Skill

Multi-level K-6 science books, high-interest reading resources, instructional tools for reading comprehension, and vocabulary materials allow teachers to easily integrate differentiated science content into their daily reading curriculum.

### Vertically Integrated Alignment of Instruction

Unit Non-Fiction Books, Quizzes, Focus Books and Investigation Packs with parallel topics across 3 grade spans support a vertical approach to science instruction.

K-2

3-4

5-6

LIFE

EARTH & SPACE

PHYSICAL

PROCESS

### Big Ideas In Science

Comprehensive units across four science domains - Life, Earth and Space, Physical, and Process Science - support Florida's Big Ideas in Science. Florida Standards-aligned lessons, multi-level informational texts, hands-on activities, multi-media and interactive resources are organized into three grade spans (K-2, 3-4, and 5-6) within each science domain.

### Scientific and Engineering Practices

Hands-on science activities, project-based learning and fun experiments provide opportunities to apply important unit concepts and develop scientific practices.
